

Tartu in Waregem 29/9 – 05/10

Saturday

On Saturday we went to pick up our exchange students at the airport. They arrived at 18:15 without any problems and we quickly went back to the train. On the train we talked a lot and got to know each other better. When we arrived back in Waregem we went to a 'frietkot' together and ate some fries. (Wout, 6W2)

Sunday

Sunday we went to the sea. Before noon we played some Cubb on the beach, sadly enough I lost two times (of the two times). In the afternoon we rode a tandem to Ostend, where we ate a waffle and saw the Ostend gallery.

After that we went to the opening of the new water tower, where we had quite a good view. At the end, I strolled with my exchange student back to our apartment while we were talking about Belgian and Estonian habits. (Maurits, 6W2)

Monday

In the afternoon we went to Bruges. We took the train at 1 p.m. In Bruges, we were split up in 2 groups. We played a city game. Every group got a map and hints. The purpose was that we had to find 5 places in Bruges with the help of the hints. We had to take pictures of those places and send them to the teachers. If we were right, we got points. Some places were really difficult to find but we succeeded in finding most of them. The winning team (team with the most points) received a voucher of €50 of Ellis burger where we ate in the evening. The burgers were really good and it was a very cosy place. At 8 p.m. we took our train home. But unfortunately we had a delay so we arrived at 9:30 p.m. in Waregem. Despite this delay, it was a great day! (Naomi, 6W2)

Tuesday

We met again at 8:30 am in school. We got some information about our project and presented our presentations of our schools and countries to each other. After that, we did a guided tour through our school and a little walk in Waregem. In the evening we prepared a food court with typical food of Belgium and Estonia. At 8 pm it was time to go home. (Emiel, 6W2)

Wednesday

On Wednesday we started the day with working a little bit further on the project. After we did that, we went to Clarysse, a company that makes towels. One of the towels they make is very sustainable, they recycle jeans and with these jeans they make towels. In the afternoon we went with the whole group to the market to drink something together. At 4 pm everybody went home to also have some time alone with their exchange student. (Matisse, 6W2)

Thursday

On Thursday we had to present our project to the teachers. It went really well. Afterwards we went to Ghent and did a city game and visited the Gravensteen castle. We then ate pizza in Otomat Ghent, it was really delicious. (Wout, 6W2)
